

LOAD TEST WATER BAG

Water Load Test Bags are engineered for the safe, efficient, and accurate testing of lifting and structural equipment such as cranes, beams, davits, hoists, and walkways.

Application:

- Cranes
- Beams
- Davits
- Hoists
- Walkways

They are ideal for safely simulating loads during structural or equipment testing.

Key Features:

- Designed with a 6:1 safety factor (where required), verified through NEL Type Testing
- Engineered for efficient filling, controlled emptying, and dependable use.
- Models available up to 35 tonnes
- Modular Components Supplied as Required:
- Removable heavy-duty webbing
- Shackles and connecting links
- Rubber snubbers for shock absorption
- 2.5" filling hose with Camlok valve for fast water input
- 4" emptying trunk with pulley assembly for efficient drainage
- Ready to Use: Delivered fully assembled and ready for deployment.
- Certification: Optional 1:1 test certification available on request.

Model Name	Part Number	Capacity
